### DETAILED ACTION

1. This Office action is in response to the amendment filed April 14, 2004 in which claims 1, 4, 9, 12, 14, 21, 22, 24, 30, 32, 33, 35, 41, 42, 44, 50, 54, 56, and 58 were amended and claims 2, 3, 8, 11, 18, 29, 40 and 71 were canceled.

Applicant has amended the claims to exclude these compounds directed to pyrimidine compound derivative.

Applicant has amended the claims to overcome the previous rejections under 35 USC 112, second paragraph and those rejections under 35 USC 102(b).

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1, 4-7, 9-10, 12-17, 19-28, 30-39 and 41-70 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In claim 1, X may be  $PR^fR^g$  or  $-POR^fR^g$  wherein  $R^f$  and  $R^g$  may be  $C_1-C_{12}$  cycloalkyl. The examiner does not find support in specification for  $R^f$  and  $R^g$   $C_1-C_{12}$  cycloalkyl. At page 45, lines 11-12,  $R^f$  and  $R^g$  may be  $C_5-C_{12}$  cycloalkyl.

Art Unit: 1714

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 4-7, 9-10, 12-17, 19-28, 30-39 and 41-70 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, for L, "cycloalky " is misspelled.

In claim 12, X is defined as in claim 1. Applicant cannot rely upon claim 1 for this limitation because claim 1 and 12 are directed to different compounds. Applicant should insert the limitations of X into claim 12.

In claim 22, X is defined as in claim 1. Applicant should insert the limitations of X into claim 22. See comments above.

In claim 33, X is defined as in claim 1. Applicant should insert the limitations of X into claim 33. See comments regarding claim 12.

In claim 42, all occurrences of X are defined as in claim 1. Applicant should insert the limitations of X into claim 33 at the first occurrence of X and in the subsequent occurrences delete as "defined in claim 1" and insert - - as defined above - -.

These changes should also be made in claims 50, 54, 56, 57 and 58.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
